REASONS FOR ALLOWANCE

1. Claims 1-21 are allowed. The following is an examiner's statement of reasons for allowance.

2. Regarding claim 1, prior art does not disclose or fairly suggest a method including the steps of determining a modulation factor at a plurality of modulation points and generating a modulation tube current waveform that substantially approximates a waveform indicative of at least one of subject size and subject shape based on a modulation factor at the plurality of modulation points, in combination with all the limitations in the claim. Claims 2-8 are allowed by virtue of their dependency.

3. Regarding claim 9, prior art does not disclose or fairly suggest a system including a computer programmed to generate at least one polynomial expression fit to values evaluated at a plurality of magnitudes, and determine an approximate tube current modulation waveform from the at least one polynomial expression, in combination with all the limitations in the claim. Claims 10-17 are allowed by virtue of their dependency.

4. Regarding claim 18, prior art does not disclose or fairly suggest a computer medium readable storage medium having a computer program stored thereon and representing a set of instructions that when executed by a computer causes a computer to determine a second tube current modulation waveform that approximates a first current modulation waveform from a

polynomial fit of an evaluated portion of the first modulation waveform, in combination with all the limitations in the claim. Claims 19 and 20 are allowed by virtue of their dependency.

5. Regarding claim 21, prior art does not disclose or fairly suggest a system including wherein an ideal tube current modulation is a function of oval ratio and minimum subject diameter during a one-quarter quantity rotation cycle, in combination with all the limitations in the claim.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
